BRIEF INTRODUCTION OF UNIVERSAL RITVER TINTING SYSTEM

Ritver offers an array of decorative and industrial products of different specifications, meeting the various demands and needs esthetically and technically of its clientele.

Ritver Tinting System is easy to use in providing formulation and preparation processes of an extensive range of colors.

The system provides Ritver's customers with the needed tools to take full control over the coloring process, production time and costs eliminating the set of problems they could face with color discrepancies, delivery delays and more.

The system was not only conceived to facilitate the task of tinting but also to provide the clients with the “know how” of producing their own colors.

The Tinting System is very effective, flexible and comprehensive since it enables the clients to edit and customize the preset 4,000 colors into thousands of other shades to meet their own needs and projects, and save them in their archive for future reference in addition to control the exact quantity they need.

ADVANTAGES OF RITVER TINTING SYSTEM

- Stop waste, mix as much as needed.
- Lower purchase cost.
- Reduce stocks of various quantities of different colors.
- Save production time & control delivery delays.
- Become autonomous by producing required colors any time in any quantity.
- Customize colors to obtain a wider variety
- Eliminate colors discrepancy & ensure consistent replicability.
- Keep records regarding clients' projects history.
- The possibility of tinting water base emulsion paint as well as solvent base enamel using our universal tinting system.
- ECO - friendly system low VOC. 

COMPONENTS

Ritver Tinting System include:

- A set of 14 concentrated universal pastes.
- A set of 11 converters enamel and emulsion.
- A set of Converters for coloring the decorative products.
- An innovative computer software installed on a full automatic European tinting machine.
- A full automatic European tinting machine with 16 canisters, 2 liters each.
- A shaker up to 20 liters.
- A visibility stand with NCS color chips.
- A portable spectrophotometer requested on demand.
- A set of Ritver Decorative and Industrial color card along with NCS and RAL international catalogues.

RITVER COMPUTER TINTING SOFTWARE

Through a computer, with our Ritver software, you will be able to access our ready-formulated paint colors, by choosing the color number from Ritver special enamel or emulsion catalogues, or from the international standard NCS and RAL. You may then determine the quantity you need out of 1ltr, 3ltr or 18ltr and get the quantity needed from each component.

HOW IT WORKS

Starting with 14 concentrated universal pastes, clients will be able to produce the other 4000 predefined colors and thousands more, by mixing together 2 to 4 out of the 14 base pastes. The percentage of the bases to be mixed have been precisely formulated with whole numbers to enable the clients to create small quantities and to minimize the margin of error.

TINTOMETRIC SYSTEM- UNIVERSAL PASTE (WB/SB) – ENAMEL & EMULSION

NO.	PASTE	NO.	PASTE
1	Ritvertint TW- Green	8	Ritvertint TH- Violet
2	Ritvertint TZ- Blue	9	Ritvertint ABO- White Oxide
3	Ritvertint TQ- Yellow Oxide	10	Ritvertint AGI- Yellow
4	Ritvertint RD- Red	11	Ritvertint AAR- Orange
5	Ritvertint TR- Red Oxide	12	Ritvertint BBA- White
6	Ritvertint MG- Magenta	13	Ritvertint BYC- Yellow
7	Ritvertint TP- Black	14	Ritvertint BAR- Orange

Capacity available in 1 liter and 2 liters

Ritver Divisions:

DECORATIVE FINISHES

Ahead of its rivals, Ritver is now completing the establishment and extension of the wide decorative range of products, followed by a professional and experienced distributors network which includes more than 50 showrooms operating in many cities and remote areas in the GCC, Europe & Africa.

INDUSTRIAL FINISHES

Ritver's Industrial coating range retains its hard earned reputation as a major supplier of Industrial coating finishes to the petrochemical and downstream industries in the GCC, Asia & Africa. Recently, Ritver decided to expand its range of products by introducing the first Industrial Coating line of products in the coveted areas including Epoxies, Polyurethanes, Solvent free, recognized as having the highest possible degree in the protection of steel, concrete and other critical elements of infrastructure.

WOOD FINISHES

Ritver's wood finishes division is a global market leader that offers a wide range of products: Stains, Fillers, Wood preservatives, Nitrocellulose based products, Polyurethane based products, Acrylic based products and Polyester based products. The range extends to Ultraviolet and precatylased based products, Outdoor and Auxiliary products.

POWDER COATINGS

In 2011, Ritver launched its Powder Coatings line and shortly gained large market share throughout the MEA region. Its factory located in Lebanon is mounted with state of the art equipment. The powder range of products is certified by top Tier bodies such as Qualicoat for the architectural line.

CONSTRUCTION CHEMICALS

Ritver's construction chemicals section has earned a large reputation in the MEA region especially after launching a complete Range of products and executing numerous projects in the GCC for both the private and public sectors.

CAR FINISHES

Ritver is so delighted to present the latest addition to its range of goods by initiating the car paints family that covers the whole painting system for Auto, starting by putty for cars, the binder and the base coat as well as the topcoat clear and pigmented. Ritver car paint family present a luxurious high ending range based on superior acrylic resin and particular additive that work together in order to stabilize the color and maintain a hard and strong film.

GLASS FINISHES

Ritver Glass Paint is an Acrylic top finish endowed with very good adherence, hardness and anti-scratch properties as well as yellowing resistance. It is indicated to varnish all kinds of glass. It comes in 2 grades, the water based and the solvent based glass range. Ritver became in a very short time one of the leading Glass paint dealer in the region.
